

# Cancel® Cushioned Packs

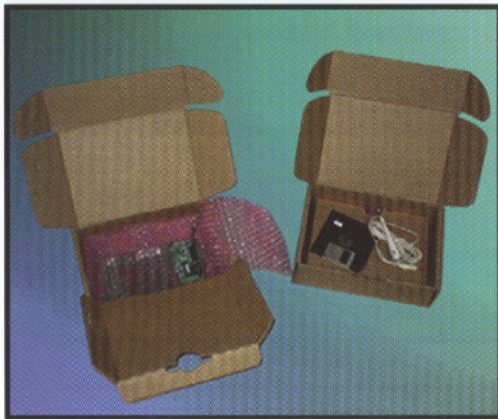

## Package Description:

ADE, Inc. Cushioned Packs combine corrugate shippers with Cancel® Cushioning Material for long-term physical and ESD protection. Cushioned Packs are available in standard and custom variations allowing you to select the style and material combination to meet the needs of your product. ADE has a substantial inventory of cutting dies in a variety of styles and sizes for quick turnaround on custom orders. In addition, some styles require no tooling dies making customization an economical option even for lower volume requirements.

## Product Availability:

Cancel Cushioned Packs are available in a variety of designs and sizes to meet specific product requirements. Some examples are:

**Caddy Pack®**  
Transporters & Sleeves  
Two-piece slide and tube system designed to provide physical and ESD protection for low profile electronics products.

**Cancel® 1P Transporter**  
with Accessory Tray  
One-piece shipper for low profile Electronics products consisting of lower cushioned transporter and fold over tray for accessories.

**Cancel® Cushioned Totes**  
Reusable and renewable static-dissipative or shielding totes for service/repair and material handling of electronics products.

## Benefits:

- ❑ Designed with Cancel Cushioning Material to provide effective physical, as well as ESD, protection.
- ❑ Compact designs reduce inventory space requirements and freight costs.
- ❑ Eliminate the need for metalized bags with designs using Cancel Metalized cushioning material.
- ❑ Provides consistent product protection for multiple uses to reduce total packaging costs.
- ❑ Long term static-dissipative performance of Cancel Cushioning provides protection for products with long shelf life or storage requirements.
- ❑ Immobilize packaged components to prevent sliding or shifting during shipping and handling.
- ❑ Available material combinations provide a wide variety of ESD protection options.

## Custom Options:

ADE, Inc. Cushioned Packs can be customized to meet your product protection needs. Options include:

- Package styles and sizes
- Corrugated board types and weights
- Custom printing
- Type of cushioning material

# Cushioned Packs Standard Products

## Cushioned Packs Standard Size Selection Guide:

Step 1: Measure your Product = Length x Width x Depth

Step 2: Add 1" to Length, Add 1" to Width, Add 3/4" to Depth = Length + 1" x Width + 1" x Depth + 3/4"

Step 3: Select the first Standard size that equals or exceeds the dimensions calculated in Step 2 or contact your ADE, Inc. Representative for a custom size.

## Caddy Pack® Transporters & Sleeves, Standard Sizes
