

# Cancel® Cushioned Pouches

## Package Description:

Cancel Cushioned Pouches are available in a variety of styles and material combinations enabling you to select the protection that's right for your product. Constructed from cellular, polyethylene-based Cancel Cushioning Material with an internal anti-stat agent, these pouches provide long-term physical and ESD protection. Multiple uses throughout your product's life cycle include Assembly, Storage and Inventory, Shipping, Field Service, and Repair.

## Benefits:

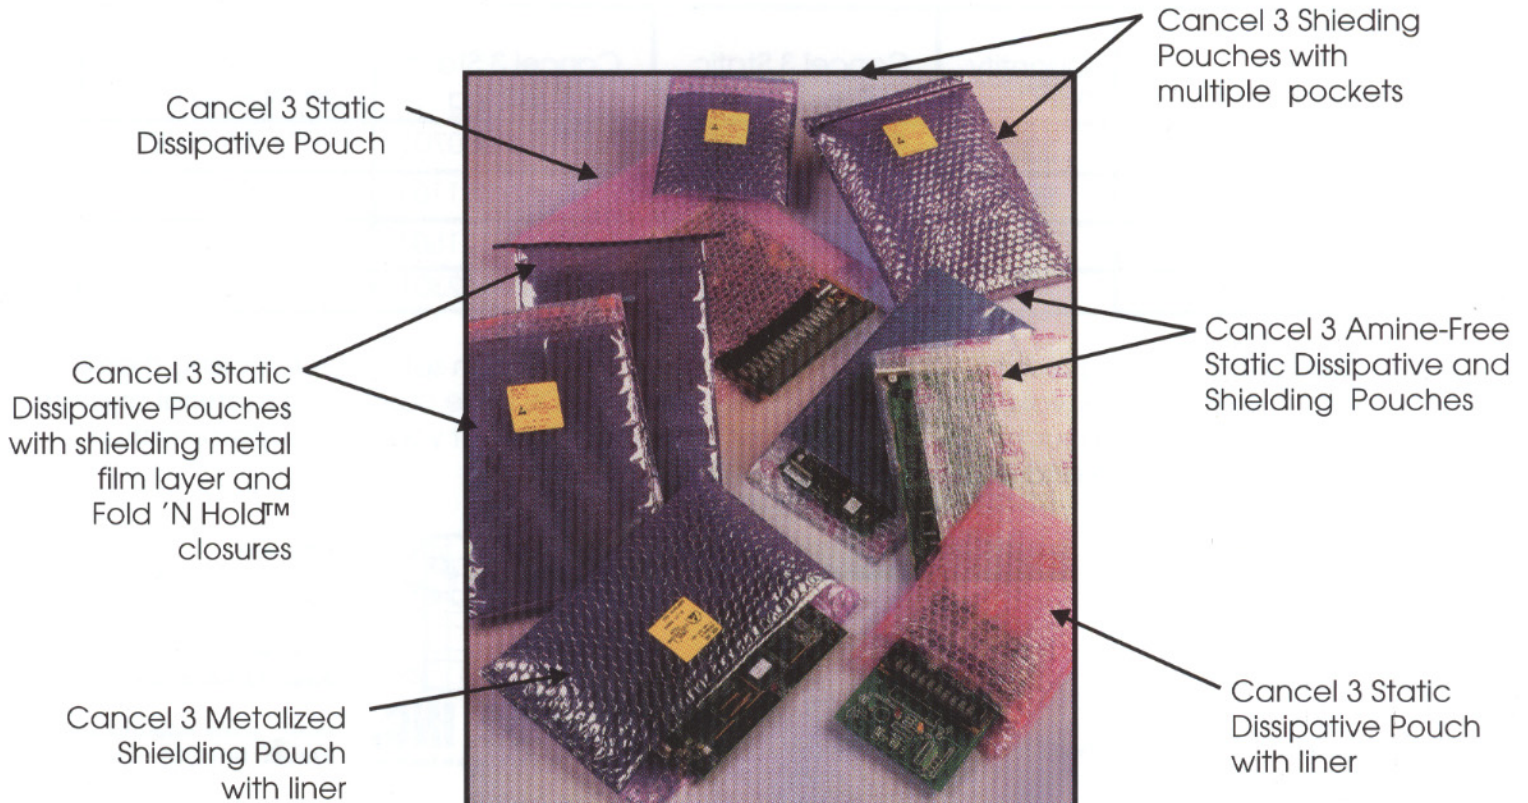

- ❑ Designed with Cancel Cushioning Material to deliver effective physical protection not available when using thin-film bags.
- ❑ Cellular cushioning construction provides reliable physical protection unaffected by age, puncture or atmospheric conditions.
- ❑ Provides physical, as well as ESD protection, eliminating the need for separate bags in assembly and shipping.
- ❑ Choice of protection level through a variety of available combinations including static-dissipative and shielding materials.
- ❑ Metalized top film on shielding materials has static-dissipative coating to prevent accidental discharge on external surface.
- ❑ Optional Fold 'N Hold™ adjustable closure fits pouch to product enabling one pouch size to be used for a variety of board sizes.
- ❑ Reliable reusability lowers total packaging costs.

## Custom Options:

Complete enhancement options are available including size of pouch, closure, and material combinations. Contact your ADE, Inc. Representative for details.

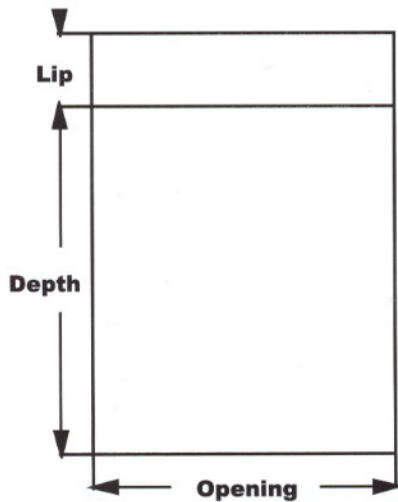

## Product Availability:

Cancel Cushioned Pouches are available in a variety of styles and material combinations, enabling you to select the protection that's right for your product. The choices include:

## Cushioned Pouches Standard Products

### Sizing Specifications

Opening x Depth x Lip

Product Size: Length x Width x Height

Pouch Size:

$$\text{Opening} = \text{Product Length} + 2 \times \text{Product Height} + \frac{1}{2}''$$

$$\text{Depth} = \text{Product Width} + 2 \times \text{Product Height} + \frac{1}{2}''$$

Pouch size calculation is approximate, please contact your ADE, Inc. Representative for assistance in determining proper pouch sizing.

Minimum Pouch Size: 4" (Opening) x 6" (Depth)

Maximum Pouch Size:

Depth 24" with no lip
