

Flex*N*Stretch™ UniPack

The UniPack It's Ready To Go!

ADE's one piece UniPack not only saves you time, money and storage space, it also provide you with a cutting edge package that will ensure your product arrives safe and secure all while making a dramatic visual impact on your end user. The UniPack can be purchased flat to free up your storage space for more important things than bubble wrap, peanuts, and end caps. It also allows your consumers to view your product while keeping it safe from curious hands. The UniPack can be used as a retail, internal or shipping container and is available with or without a display window.

The *Flex N Stretch* UniPack is easy to use and requires no assembly

①

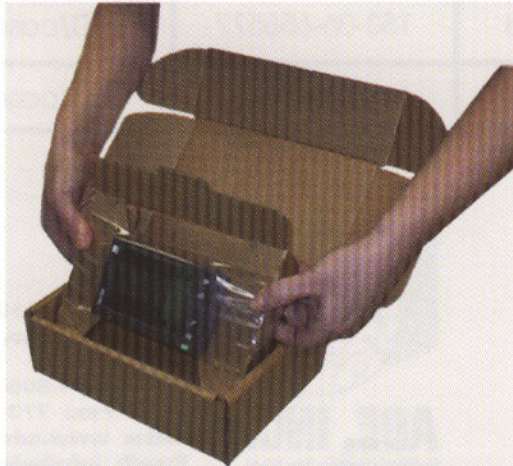

Lift tab to pull suspension cradle out of box.

②

Place product inside plastic film.

③

Fold corrugated panels down to stretch film.

④

Return suspension cradle to box.

FlexNStretch™ UniPacks

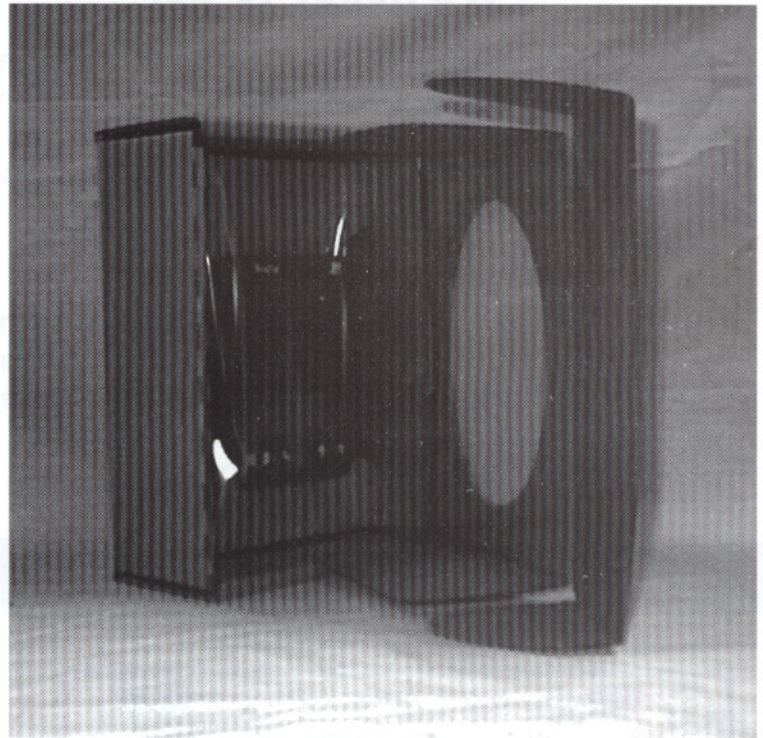

Standard Sizes and Custom Options

It's the Perfect Retail Pack!

Your customers want and need to see what they're about to buy. You can do one of two things. Your first option is to use packaging that screams "tear me open"! The second option is to provide packaging that gives your potential customers what they want by proudly displaying your product. With the FlexNStretch Uni-Pack you can show off your product, all the while keeping the integrity of your packaging in place, making sure that the last package off the self looks as good as the first.

The Uni-Pack can be custom designed to meet any of your specific product requirements including:

- Display window cut-out for retail packaging applications.
- Space for accessories or manuals shipping with your product.
